

18th October 2016

To Parents of Pupils in Foundation Stage

Dear Parents

Maths - Number and Shape, Space and Measure
Information Workshop

Tuesday 15th November 2 - 3pm

or

Wednesday 16th November 6 - 7pm

Your continued role in helping your child with their mathematical knowledge and understanding of Number and Shape, Space and Measure is very important and we value the support that you give. There is a great deal to learn and understand about maths in Early Years before moving on to Calculation and Problem Solving. Learning to add, subtract, multiply and divide can be complex and children learn in different ways. At the maths information workshops, we will explain the different approaches used appropriate to the different stages of development. The meetings are an ideal opportunity for you to ask questions and talk to the staff. Some of the resources that we use will also be available for you to look at and try.

We hope you will be able to come to this meeting and find out how you can help your child at home. There is a free information pack which you can take away with you, one per family. There will also be an opportunity to purchase a 'learning pack' which has a range of resources to support your children's learning across all areas and is priced at £2.

Please complete and return the form below by Wednesday 2nd November 2016.

We look forward to seeing you there!

Yours sincerely

Amy Symmons
